SUMMARY

Enthusiastic and self-motivated software developer with experience working in an agile team environment during the GA Tech bootcamp. Ready to transfer my skills and learn new skills to build valuable products that solve user problems.

TECHNICAL SKILLS

Languages: JavaScript, Python

Tools: React, Flask, HTML, CSS, Node.js, Express API, GraphQL, SQL, MongoDB, Github, Heroku

PROJECTS

What's Your Skin Type?

Deployed Site: www.

Github Repo: [www.github.com/Daisha22d/](https://github.com/Daisha22d/)

- Description: a quiz app that helps users determine their skin type. Knowing your skin type is great for determining what skincare products you need and how to properly take care of your skin.
- My role: designed and developed this app using Vite + React
- Technologies: Vite, React, Sass, Javascript, Github Pages

Robo Bot
